

TAJNEES QAMAR

Sr. Full Stack Developer

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5+ years of experience building scalable web platforms and AI-driven solutions in startup and remote environments. Strong expertise in modern JavaScript frameworks, backend development, cloud infrastructure, and CI/CD pipelines. Proven experience in AI agents, workflow automations, and LLM-based RAG systems, delivering reliable, production-ready applications.

WORK HISTORY

Full Stack Developer, 10/2024 to Current

Remap AI - Brisbane, Capital

- Built scalable web applications using Next.js, React, Vue, Node.js, and Python.
- Developed RESTful APIs, authentication systems, and backend services.
- Implemented AI agents, LLM integrations, and RAG pipelines
- Delivered workflow automations using n8n, Zapier, and CRM platforms.
- Deployed and maintained applications on AWS and GCP with CI/CD pipelines.

Associate Full Stack Developer II, 07/2022 to 09/2024

Metric - United Arab Emirates (Remote)

- Worked as a **Full Stack Developer in a fast-paced startup**, owning features end-to-end from UI to backend and deployment.
- Led front-end development using **Next.js** to build responsive, cross-device user interfaces.
- Designed and maintained **secure, scalable APIs** using **Node.js**.
- Implemented testing practices across front-end and back-end to improve release stability.
- Managed **end-to-end deployments on Azure** with integrated **CI/CD pipelines**.

Full Stack Developer, 09/2021 to 06/2022

ZamSolutions – Islamabad

- Developed React-based interfaces and CMS-driven applications.
- Integrated RESTful APIs and improved application reliability.

SKILLS

CI/CD Pipelines

Frontend knowledge

Backend knowledge

Git version control

JavaScript experience

Sprint planning

Team collaboration

Micro services architecture

Project management

PHP Developer, 09/2020 to 09/2021

ZamSolutions – Islamabad

- Built CRM and web applications using Laravel and CodeIgniter.
- Designed databases and optimized SQL queries.

Full Stack Developer, 01/2019 to 08/2020

Essentia Technologies, Islamabad – Islamabad

- Developed RESTful APIs and backend components.
- Assisted with database design, debugging, and code reviews.

PROJECTS

Busichat App – Full-Stack AI Platform

Vue.js | Next.js | Node.js | PostgreSQL | Stripe | OpenAI | BlandAI | Twilio | AWS

- Developed the frontend using Next.js within a sprint-based workflow, leveraging Git and ClickUp for task management.
- Implemented a complete payment system with Stripe, including subscriptions, auto-recharge, and role-based feature access.
- Built AI-powered features using OpenAI, BlandAI, and ElevenLabs, delivering voice-enabled agents with function calling and automated appointment booking.
- Integrated Twilio for SMS and voice communication, and automated calendars and CRM workflows using n8n.
- Developed backend services with Node.js, managed PostgreSQL databases, and deployed applications on AWS using Nginx with CI/CD pipelines.

Metric App – Full-Stack Fintech Platform

Next | React | Node.js | PostgreSQL | BI Dashboards | Cloud Deployment

- Developed real-time financial dashboards and reporting systems.
- Built secure APIs and data visualization tools.

Private AI Platform (Multi-Model)

LLMs | RAG | Vector Databases | AI Agents | Secure Deployment

- Built secure multi-model AI system with RAG pipelines and agent workflows.
- Integrated RAG pipelines using vector databases to provide context-aware, private knowledge retrieval.
- Developed AI agent workflows for task automation, document processing, and intelligent decision support.
- Designed secure APIs and access controls to ensure data privacy and controlled model usage.
- Deployed and maintained the platform on cloud infrastructure with scalable, production-ready architecture.

EDUCATION

Bachelor of Science, Software Engineering, 01/2019 to 12/2019

International Islamic University - Islamabad, IS, Pakistan
